April 20, 2010

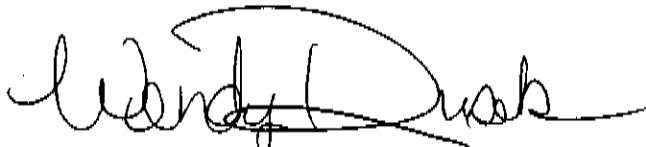

To Whom It May Concern:

Each year the Springtown Beautification Committee holds the Miss Springtown Pageant, both as a fundraiser for our organization and to recognize the beautiful and talented young ladies of all ages who compete. I have been pageant coordinator for this event the past several years. My best experiences with sound and music for the pageant have been the years in which Audio Arts handled our sound needs.

David takes great effort in planning to make sure he has the music we need for the event, and we have a solid plan in place as the date approaches. During rehearsal David provides excellent equipment and pays the greatest attention to detail to make sure that we are all prepared and on the same page. Because of his planning, preparation, and commitment to service, the sound reinforcement and music for the "show" comes off without a hitch.

It is my great pleasure to recommend that the services of Audio Arts be considered by any individual or group who needs the services of a DJ, sound engineer, or other similar audio services.

Yours truly,

A handwritten signature in black ink, appearing to read "Wendy Keen Dusek". The signature is fluid and cursive, with a large loop at the end of the last name.
